Digital Artwork

Photo above: Nude pencil drawing (detail) by Kevin Yarrow

We selected to show detail from Kevin's sketch for several reasons - the sketch was done on a plain paper; it is 23 x 33 inches in size and it was in let's call it an exhausted condition. Kevin wanted to preserve the work and to have a digital copy of it.

So in our large photographic studio we photographed the print and then digitally cleaned it and enhanced it to make sure that every pencil stroke and every tiny details is recorded.

Our digital artwork services cover photography and complete digital editing of your work and we make sure that the work is recorded correctly in order to be later reproduced in its true glory.

Our digital artwork services start at £50 and we have the facilities to photograph large works - come to our studio to see for yourself and talk to us about your work.

OUR FAVOURITE PAPERS

Hahnemühle William Turner 310gsm

Photo above: Carmel Beach CA (detail) printed on Hahnemühle William Turner 310gsm 100% cotton textured art paper (shared with the permission of the photographer)

Hahnemühle William Turner is a traditional mould-made watercolour paper with a coating for inkjet printing. The white cotton paper does not contain optical brightness, but stands out due to its fine but highly pronounced textured surface. The matt inkjet coating creates impressive contrasts and deep blacks, resulting in images with outstanding depth. William Turner is acid and lignin free, meeting the most exacting of age resistance.

We loooooove Nadia's work. It makes us happy. We can just sit in front of the printer and watch the printer creates line by line the beautiful, vibrant colours of her work...

This is what Nadia says about herself:

"Colour defines my works. I feel the vibrancy of greens, turquoises, pinks... and these form part of my real and imagined botanicals, people and animals. I love texture and shape on the canvas.

Each piece for me is spontaneous and intuitive, I feel my way around the canvas with pure freedom. Each painting is an evocative, rich, awakening of my senses. I am both calm and intense when I paint – using my hands, bold brush marks and dotting. Leaving the studio, I walk back to my house leaving behind spent emotional energy."
